Thank you

Thank you for purchasing the Jabra BT160 Bluetooth® Headset. We hope you enjoy it! This instruction manual will get you started and ready to make the most of your headset.

! Remember, driving comes first, not the call!

Using a mobile phone while driving can distract you and increase the likelihood of an accident. If driving conditions demand it (such as bad weather, high traffic density, presence of children in the car, difficult road conditions), pull off the road and park before making or answering calls. Also, try to keep conversations short and do not make notes or read documents.

Always drive safely and follow local laws.

About your Jabra BT160

- LED light
Blue indicates mode (pairing, active or standby) and battery charging
Red indicates low battery level
- Volume up (+), volume down (-)
- Charging socket
- Answer/end button
Press to turn headset on
Press and hold to turn headset off
Tap to answer or end a call
Press this, **and press** volume up (+) button at same time, to put headset in pairing mode
- Earhook – gently flip and rotate 180° to fit left ear. (See fig. 2)
- Plastic cover plate

What your headset can do

Your Jabra BT160 lets you do all this:

- Answer calls
- End calls
- Reject calls (phone dependent)
- Voice dialing (phone dependent)
- Last number redialing

Specifications:

- Up to 6 hours talk time and up to 110 standby (subject to phone)
- Rechargeable battery with charging option from AC power supply or car charger (not included)
- Weight 16 g
- Operating range up to 33 feet / 10 m
- Headset and hands-free Bluetooth profiles
- Bluetooth¹ specification (see **glossary**) version 1.2

Changing the design

To insert your preferred design in your Jabra BT160:

- 1 Gently remove the plastic cover plates and current design.
- 2 Gently press out your preferred design from the sheets enclosed.
- 3 Add you preferred design and gently clip the plastic cover plate back into place. See illustrations below for further guidance.

Getting started

The Jabra BT160 is easy to operate. The answer/end button on the headset performs different functions depending on how long you press it.

Instruction:	Duration of press:
Tap	Press briefly
Press	Approx: 1 second
Press and hold	Approx: 5 seconds

1 Charge your headset

Make sure that your Jabra BT160 headset is fully charged before you start using it. Use the AC adaptor to charge from a power socket. Connect your headset as shown in fig. 3. When the LED is solid blue, your headset is charging. When the solid blue LED turns off, it is fully charged.

2 Turn on your headset

- **Press** the answer/end button to turn on your headset
- **Press and hold** the answer/end button to turn off your headset

3 Pair it with your phone

Before you use your Jabra BT160, you need to pair it with your mobile phone.

1. Put the headset in pairing² mode

Make sure that the headset is on.

Press the answer/end button *and* **press** the volume up (+) button at the same time, until a solid blue light comes on.

2. Set your Bluetooth phone to 'discover' the Jabra BT160

Follow your phone's instruction guide. This usually involves going to a 'setup,' 'connect' or 'Bluetooth' menu **on your phone** and selecting the option to 'discover' or 'add' a Bluetooth device.* (*See example from a typical mobile phone in fig. 4*)

3. Your phone will find the Jabra BT160

Your phone then asks if you want to pair with it. Accept by pressing 'Yes' or 'OK' on the phone and confirm with the **passkey or PIN³ = 0000 (4 zeros)**.

Your phone will confirm when pairing is complete. In case of unsuccessful pairing, repeat steps 1 to 3.

4 Wear it how you like it

The Jabra BT160 is ready to wear on your right ear. If you prefer the left, gently flip and rotate the earhook 180°. (*See fig. 2*)

For optimal performance, wear the Jabra BT160 and your mobile phone on the same side of your body or within line of sight. In general, you will get better performance when there are no obstructions between your headset and your mobile phone. (*See fig. 5*)

5 How to...

Answer a call

- **Tap** the answer/end button on your headset to answer a call

End a call

- **Tap** the answer/end button to end an active call

Reject a call (Dependent on your phone supporting this feature)

- **Press** the answer/end button when the phone rings to reject an incoming call. Depending on your phone settings, the person who called you will either be forwarded to your voice mail or hear a busy signal

Make a call

- When you make a call from your mobile phone, the call will (subject to phone settings) automatically transfer to your headset

Activate voice dialing (Dependent on your phone supporting this feature)

- **Tap** the answer/end button. For best results, record the voice-dialing tag through your headset. Please consult your phone's user manual for more information about using this feature

Redial last number (Dependent on your phone supporting this feature)

- **Press** the answer/end button

Adjust sound and volume

- **Press** the volume up or down (+ or -) to adjust the volume (*See fig. 1*)

6 What the lights mean

What you see	What this means about your headset
Flashing blue light	Flashing every second: active on a call
Flashing blue light	Flashing every three seconds: in standby mode ⁴
Flashing red light	Running low on battery
Solid blue light	Charging
Solid blue light off	Fully charged
Solid blue light	In pairing mode – (See section 3)

7 Troubleshooting & FAQ

I hear crackling noises

For the best audio quality, always wear your headset on the same side of the body as your mobile phone.

I cannot hear anything in my headset

- Increase the volume on the headset
- Ensure that the headset is paired with the phone
- Make sure that the phone is connected to the headset – if it does not connect either from the phone's Bluetooth menu or by tapping the answer/end button, follow the pairing procedure (**See section 3**)

I have trouble pairing BT160 with my phone

1. You may have deleted your headset pairing in your mobile phone. Follow the pairing instructions in section 3
2. You can pair your BT160 with up to 8 different phones or bluetooth devices. If your BT160 is connected to another phone or other bluetooth device, disconnect the BT160 from the previously used phone using the phone set up menu.
3. There is also the possibility that the BT160 is searching for a device to connect to. Wait 30 seconds and try again.
4. Check the phone screen to ensure that the BT160 is not awaiting a response from your mobile phone set up menu.

I cannot use Reject call, Call on hold, Redial or Voice dialling

These functions are dependent on your phone supporting them. Please check your phone's manual for further details.

Will the Jabra BT160 work with other Bluetooth equipment?

The Jabra BT160 is designed to work with Bluetooth mobile phones. It can also work with other Bluetooth devices that are compliant with Bluetooth version 1.1 or 1.2 and support a headset and/or hands-free profile.

8 Need more help?

- Web: www.jabra.com (for the latest support info and online User Manuals)
- See the inside cover for details of customer support

9 Taking care of your headset

1. Always store the Jabra BT160 with power off and safely protected.
2. Avoid storage at high temperatures (above 60°C / 134°F) – such as in a hot vehicle or in direct sunlight. (Storage at high temperatures can degrade performance and reduce battery life).
3. Do not expose the headset or any of its supplied parts to rain or other liquids.

10 Warranty

Jabra (GN Netcom) warrants this product against all defects in material and workmanship for a period of one year from the date of original purchase. The conditions of this warranty and our responsibilities under this warranty are as follows:

- The warranty is limited to the original purchaser.
- A copy of your receipt or other proof of purchase is required.
- The warranty is void if the serial number, date code label or product label is removed, or if the product has been subject to physical abuse, improper installation ,modification, or repair by unauthorized third parties.
- The responsibility of Jabra (GN Netcom) products shall be limited to the repair or replacement of the product at its sole discretion.
- Any implied warranty on Jabra (GN Netcom) products is limited to one year from the date of purchase on all parts, including any cords and connectors.
- Specifically exempt from any warranty are limited-life consumable components subject to normal wear and tear, such as microphone windscreens, ear cushions, decorative finishes, batteries, and other accessories.

- Jabra (GN Netcom) is not liable for any incidental or consequential damages arising from the use or misuse of any Jabra (GN Netcom) product.
- This warranty gives you specific rights and you may have other rights which vary from area to area.
- Unless otherwise instructed in the User Manual, the user may not, under any circumstances, attempt to perform service, adjustments or repairs on this unit, whether in or out of warranty. It must be returned to the purchase point, factory or authorized service agency for all such work.
- Jabra (GN Netcom) will not assume any responsibility for any loss or damage incurred in shipping. Any repair work on Jabra (GN Netcom) products by unauthorized third parties voids any warranty.

11 Certification and safety approvals

China

Conforms to the provisions on the Radio Regulations of China.

Republic of Korea

Certified under the provisions of Regulations on Certification of Information and Communication Equipment by Director General of Radio Research Laboratory (Ministry of Information and Communication)

Taiwan

Approved by The Directorate General of Telecommunications (Ministry of Transportation and Communications).

Singapore

Approved by the Infocomm Development Authority of Singapore (IDA) for sale and use in Singapore.

FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CE

This product is CE marked according to the provisions of the R & TTE Directive (99/5/EC).

Bluetooth

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Jabra is under license. Other trademarks and trade names are those of their respective owners.

12 Glossary

- 1 **Bluetooth** is a radio technology that connects devices, such as mobile phones and headsets, without wires or cords over a short distance (approx. 30 feet). Get more information at www.bluetooth.com.
- 2 **Bluetooth** profiles are the different ways that Bluetooth devices communicate with other devices. Bluetooth phones support either the headset profile, the hands-free profile or both. In order to support a certain profile, a phone manufacturer must implement certain mandatory features within the phone's software.
- 3 **Pairing** creates a unique and encrypted link between two Bluetooth devices and lets them communicate with each other. Bluetooth devices will not work if the devices have not been paired.
- 4 **Passkey** or **PIN** is a code that you enter on your mobile phone to pair it with your Jabra BT160. This makes your phone and the Jabra BT160 recognize each other and automatically work together.
- 5 **Standby mode** is when the Jabra BT160 is passively waiting for a call. When you 'end' a call on your mobile phone, the headset goes into standby mode.
