

CUTTING EDGE: ANOTHER WORLD FIRST FROM METABO!

With a choice of 4 blade options the tool-less Metabo Quick blade change system is a world first for hedge trimmers. It offers two distinct advantages from the off: on one hand, you can replace your blunt blade yourself without having to bring the whole machine in for servicing; on the other, you can cover several uses with one machine - trim large surfaces with a long blade, cover all your general jobs with a medium blade or choose a shorter blade for more delicate, intricate work. **Metabo. Work. Don't play.**

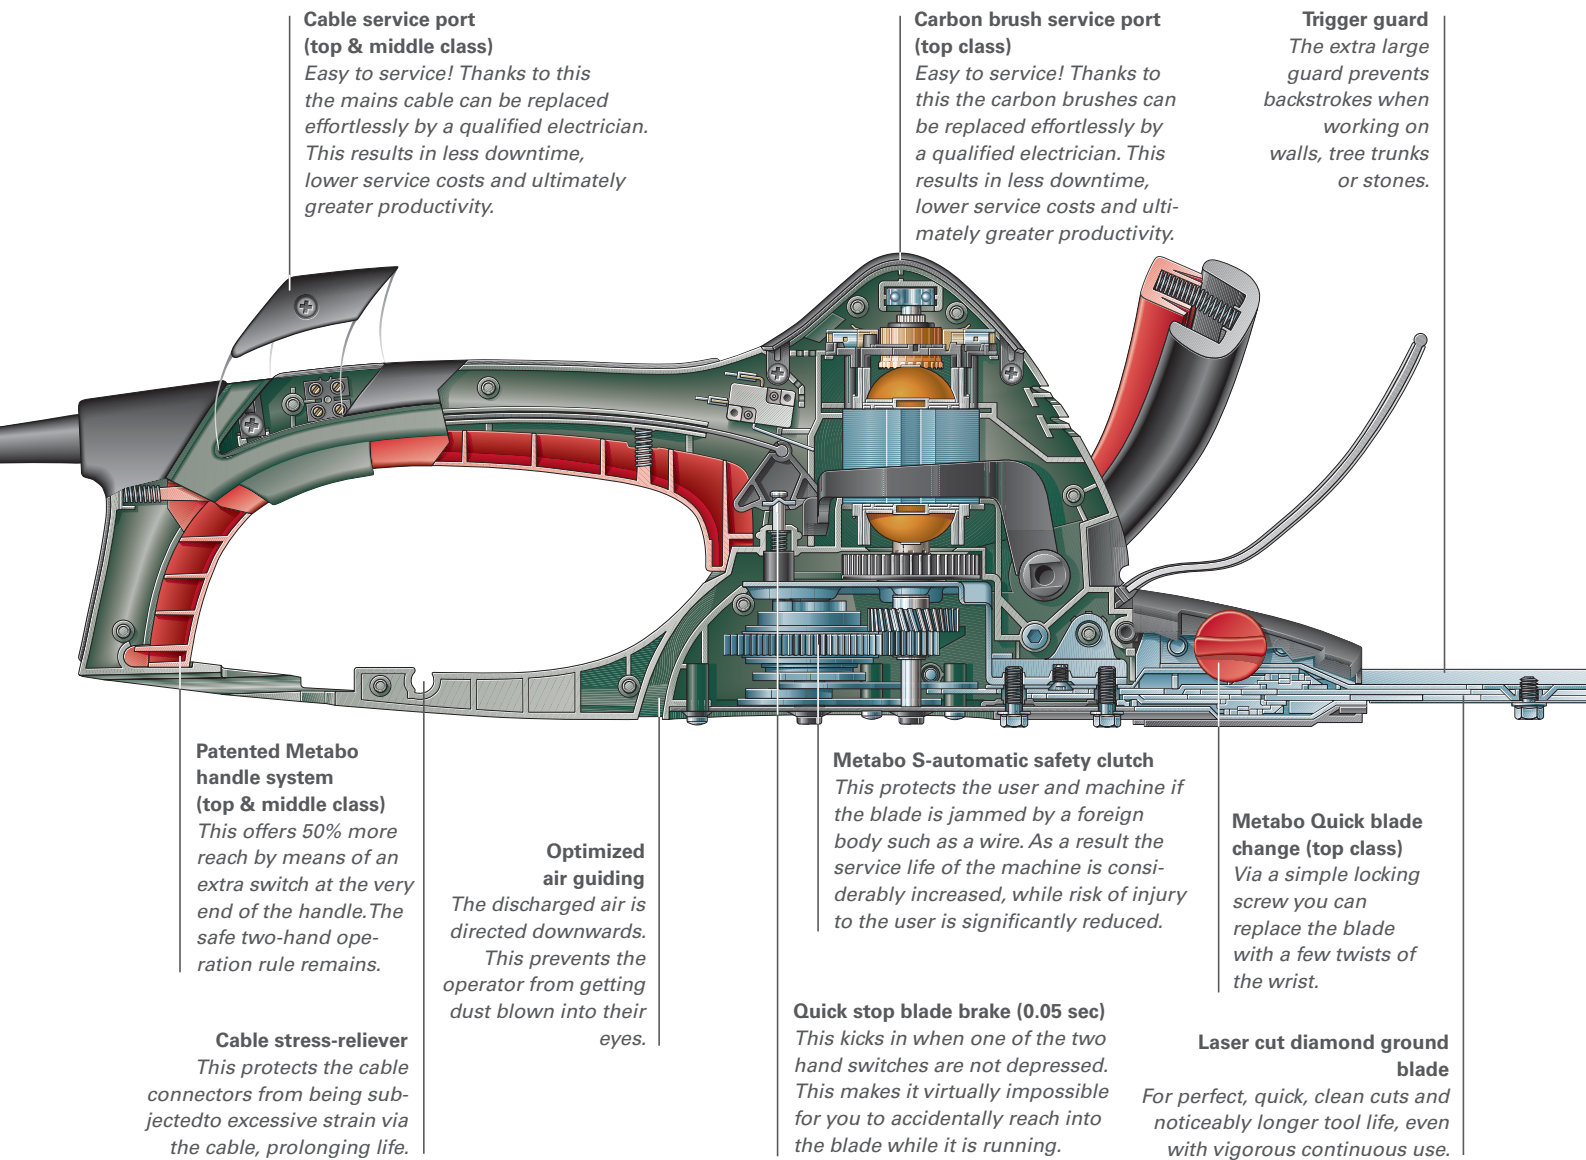

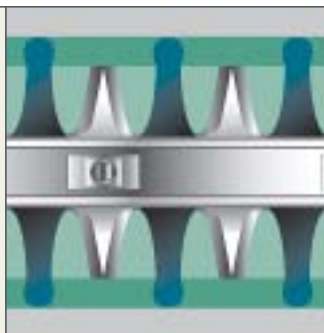

METABO IS SIMPLY A CUT ABOVE THE REST.

Once again Metabo are setting new standards in hedge trimming. In order to meet the varying demands of the hedge trimmer market we have divided our new models into three classes – a top, middle and standard class. The top class boasts a world first with its toolless "Quick" blade change system. The middle class incorporates the patented Metabo handle which increases the cutting reach by up to 50% compared to conventional designs (as does the

top class). Where as the standard class provides a compact light weight solution, while still retaining some the features and benefits of the upper classes. In essence Metabo hedge trimmers stand out in all three classes by virtue of their performance, ergonomics and innovation. Robust motors, laser cut diamond-ground blades and excellent features are just some of the reasons why they are the first choice for many professionals the world over.

The patented Metabo handle system (top & middle class)
offers 50% more reach by means of an extra switch on the back handle. You can reach higher without having to abandon the safe two-hand operation.

Safety lower blade
The 8-mm safety zone of the lower blade makes cutting even safer.

Safe two-hand operation and patented mechanical quick braking
This kicks in when one of the two hand switches are not depressed. This makes it virtually impossible for you to accidentally reach into the blade while it is running.

COMMON FEATURES

- Safety two-handed operation and patented mechanical quick braking (blade quick stop in 0.05 seconds)
- Safety lower blade
- Cleaner cut due to double ground blade teeth at 30° angle
- Especially sharp diamond-ground blade teeth
- Large hand guard
- Metabo S-automatic torque limiting clutch
- Quiet running and very good ergonomoy
- Cable strain relief
- Trigger-guard with twig feed

	450 Watt Hedge Trimmer HS 45	450 Watt Hedge Trimmer HS 55	450 Watt Hedge Trimmer HS 65
Comparative device characteristics			
Cutting strength	18 mm	18 mm	18 mm
Cutting length	450 mm	550 mm	650 mm
Blade clearance	28 mm	28 mm	28 mm
Number of cuts at no load	3.100 /min	3.100 /min	3.100 /min
Rated input power	450 W	450 W	450 W
Weight (without mains cable)	3,4 kg	3,6 kg	3,8 kg

Type	HS 45	HS 55	HS 65
Order no.	6.20016	6.20017	6.20018 ■

Accessories		Order no.
	Hedge trimmer maintenance oil spray ■ Vegetable-based ■ Also suitable for the cordless hedge trimmer Hs A 8043 Maintenance, pump-spray-can, with 0.3 litre capacity	6.30475
	Hedge trimmer maintenance oil, 1 litre ■ Vegetable-based ■ Also suitable for the cordless hedge trimmer Hs A 8043	6.30474

	Cable strain relief ■ For attaching between the machine power plug and the extension lead socket (prevents the plug of the power tool from accidentally being pulled out of the socket)	6.31070
	Full-view safety goggles ■ Very comfortable full-view safety goggles. UV protection 2-1, coating on the lens: scratch-free on the outside and mist-free on the inside.	6.31071

COMMON FEATURES

- Up to 50% range increase due to patented Metabo handle system
- Safety two-handed operation and patented mechanical quick braking (blade quick stop in 0.05 seconds)
- Safety lower blade
- Cleaner cut due to double ground blade teeth at 30° angle
- Fatigue-proof operation due to ergonomic full grip bow-type handle design and optimum centre of gravity position
- Large hand guard
- Quiet running due to shear blades running in opposite direction
- Metabo S-automatic torque limiting clutch
- Quiet running and very good ergonomoy
- User-friendly guidance of machine exhaust in all working situations
- Cable strain relief
- Trigger-guard with twig feed

SAWS
SPECIAL-PURPOSE MACHINES
SYSTEMATIC ORGANISATION
GARDEN
WOOD-PROCESSING TECHNOLOGY
WATER-/PUMP TECHNOLOGY
WELDING TECHNOLOGY
COMPRESSED AIR SYSTEMS

COMMON FEATURES

- Unique safety by the patented Metabo wrap spring chain brake (stop in 0.1 sec.)
- Saw chain with safety driving links
- Sturdy motor with high capacity reserve
- Break-proof housing made of reinforced fibre glass and heat-resistant polyamide
- Large hand guard
- Switch with safety lock lock to protect against unintentional start of the chain saw
- Bracing with support star
- Automatic chain lubrication
- Solid interchangeable stop clutch
- Chain catch pin in case the chain breaks
- Large surface for safe operation
- Easy chain change
- Auto-stop carbon brushes
- Combo-spanner in spanner case

Kt 1441

	1400 Watt Chain Saw Kt 1441
Comparative device characteristics	
Torque	10 Nm
Cutting length	400 mm
Rated input power	1.400 W
Output power	800 W
Saw chain	
- Division	9,35 mm
- Cutter shape	Low profile, Semi-chisel
- Thickness of drive links	1,3 mm
- Number of drive links	57
No load chain speed	10 m/s
Oil delivery rate adjustable	5 - 10 cm ³ /min
Oil container volume	0,2 l
Weight (without mains cable)	4,2 kg
Standard equipment	Bracing, saw chain, contact safety device, 0.2 l chain saw adhesive oil, cable strain relief strap, combo-spanner
Type	Kt 1441
Order no.	6.01441

Accessories		Order no.
	saw chain For Kt 1440 A; division: 3/8"; drive links; (as spare)	6.31670
	Precision guide rail (as spare)	6.31671
	Saw chain sharpening kit Consisting of file holder with Ø 4-mm round file (6.31438), flat file, depth gauge and brace cleaner	6.31437
	File holder with file File holder with Ø 4-mm round file (spare)	6.31439
	Chain saw adhesive oil 1 litre, bio-degradable	6.31433
	5 litre, bio-degradable	6.31434
	Universal saw horse ■ Stable construction made from galvanized, chromed steel ■ Suitable for sawing with electric and motor chain saws. The machines can be attached on the right or left side of the saw horse. ■ Safe working conditions - thanks to the restricted guidance of the chain-saw ■ The distance between the saw's bracing and the wood to be sawn can be adjusted to suit the wood's thickness ■ Suitable for cutting through logs up to 300 mm in diameter ■ Adjustable length guide Working height: 75 cm Dimensions (folded): 87x82x6 cm Weight: 11 kg	6.31430
	Full-view safety goggles ■ Very comfortable full-view safety goggles. UV protection 2-1, coating on the lens: scratch-free on the outside and mist-free on the inside.	6.31071
