- Quality and durability backed by a Belkin Three-Year limited Warranty

## Installing the Driver

**Note:** Before beginning any installation procedure, always backup your data in this case, perform a HotSync™ operation of your handheld's information to your computer.

### Installation the Keyboard driver with a Windows PC

1. Insert the Belkin PDA Keyboard Driver diskette into the A: Drive.
2. Double-click on the My Computer icon on your Windows Desktop.
3. Double-click on the Floppy (A:\) Driver icon.
4. Double-click on the belkin.prc icon, this will launch the Palm Desktop install tool.
5. Select the Driver (belkin.prc) to be installed by clicking on it once.
6. Click Done. The Driver will be installed on your handheld the next time you perform a HotSync function.

## Using the Keyboard

A – Open the Keyboard.

1. While holding the Keyboard, depress the latch to open the case.
2. Unfold the Keyboard to its full size.
3. Holding the red-bordered sides of the Keyboard, slide the right half toward the left until the two sides come together.
4. Slide the docking bracket out from the Keyboard until it is fully extended. Lift the support bracket up and push the rear support out into one of the support slots. You can adjust the bracket support to the desired viewing angle.

### Using the Keyboard (continued)

5. Next,

- a. For **Palm V Series** handhelds: slide your handheld onto the docking connector gently until it is firmly in place. Your PDA will power on automatically. Tilt it upward and position the flat support to the desired angle.

- b. For **Palm III, VII and m100 Series** handhelds: slide the PDA-One™ Adapter onto the docking connector. Press gently until the Adapter is firmly seated.

- c. Position your handheld over the docking connector.

- d. Slide it on until the handheld is firmly in place. You can now power on your handheld.

### Using the Keyboard (continued)

After use, detach your handheld and refold the Keyboard.

1. Remove your handheld from the Keyboard connector with an upward motion.
2. Remove the PDA-One Adapter, if necessary (if using a Palm III, VII or m100 Series handheld).
3. Fold down the connector support and slide in back to its storage position.
4. Refold the Keyboard and place it back into its protective storage case.

## Adjusting the Keyboard Settings

### Adjust your keyboard for your specific uses

1. Select the Applications icon 
2. Select the Keyboard icon
