FCC Information

User Instructions

The Federal Communications Commission Radio Frequency Interference Statement includes the following warning :

NOTE : This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television receptions, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

User Information

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Connecting of peripherals requires the use of grounded shielded signal cables.

Important Tips

Image Retention Effect(Image Sticking) —

1. Cause :

- If LCD TV displays the same pattern for a long period of time, Image Retention Effect may develop due to the LCD structure.
- This is a common phenomenon that occurs in all LCD products on current market.

2. Prevention :

- To avoid this matter, use the product after reducing brightness and contrast, especially when a still image is displaying for a long time. (Example : Contrast 25, Brightness 25 - *See the page 34*)
Once Image retention occurs, change the mode into Video mode which displays more motion pictures. It will help reduce this effect, but cannot completely eliminate the effect once it occurs.
When a fixed pattern is displayed often, screen brightness may get worse.

3. Solution :

- Displaying a full white pattern for around 10 hours might help reduce latent image effect temporarily.
- It is not possible to permanently prevent Image Sticking Effect using current technology.

4. Notice :

- It is very important to notify every buyer/customer of this information and all distributors/buyers/customers should be fully aware of this.
- A manufacturer cannot provide a technical support of Image Sticking Effect of LCD TV. And Warranty does not include Image Sticking Effect.

Image Sticking Precaution

Still Image Wide/4:3 in Motion Image —

- **Precaution :**

- Image Sticking could be come from Still Image and Boundary line for a long time display and Brightness gap in Boundary.
- This Matter(Image Sticking) is same thing under the other LCD TV's Company.
- Still Image/Letter in watching TV also will be effect to Image sticking.
- *This matter(Image Sticking) is out of warranty.

Features

A Wide Array of Screen Settings

You can choose different screen settings depending on the type of program you are watching or the surrounding conditions (the lighting or the outside weather conditions).

You can switch among Dynamic, Mild and Standard, or you can configure the screen settings for yourself.

A Wide Array of Sound Settings

You can choose an optimal sound setting for the type of program you are watching.

You can switch among Standard, Music, Movie and News, or you can configure the settings for yourself.

Various Screen Sizes

Standard (4:3), Widescreen (16:9) and Zoom are available.

PIP (Picture In Picture), POP (Picture Of Picture) are Multi(9 screens) functions are provided.

Teletext Function

You can display teletext information at any time on your TV.

Surround Audio Function

You can listen to dynamic and surround sound only with ordinary speakers.

Auto ON/OFF Function

This function allows you to turn on/off your LCD TV at the preset time.

Safety Precaution

The contents of this section are provided for the safety of users and their property. Please read the instructions carefully before using.

WARNING

Do not connect multiple electrical appliances to a single outlet.
- It may cause a fire due to overheating from the outlet.

If there is a persistent accumulation of dusts or water on the plug, please make sure to wipe it off using a dry cloth.
- It may cause a fire or an electric shock.

WARNING

Do not put a water bowl, vase, candle, bug repellent, cigarette, plants, or heavy thing on the LCD TV.
- It may cause electric shock or fire and also heavy things may cause injury when they fall.

Do not install in a place where there is oil, smoke, excessive humidity, or where water may be sprinkled, dripped, splashed on it.
- This may cause electric shock or fire.

Safety instructions are divided into “Warning” and “Alert”. Their meanings are as follows.

-  This icon is intended to alert the user to the presence of potential danger and important operating instructions.
-  **Warning** : When there is a possibility of serious injury or death if not observed.
-  **Alert** : When there is a possibility of slight injury or product damage if not observed.

Firmly plug in the power cord so that it does not pull out.
- An unstable connection may cause fire.

Do not use a damaged power cord or plug, or loose outlet.
- They may cause electric shock or fire.

Never touch the power plug or outlet with wet hands.
- This may cause electric shock.

Please avoid touching the panel at the rear of LCD TV as it is producing high temperature.
- Direct contact with the hot surface may cause physical burns.

Do not install on an unstable place or small support.
- This may cause the LCD TV to fall, resulting in serious injury to a child or adult.

Do not use or store a flammable spray or inflammable things near the LCD TV.
- They may cause explosion or fire.

Do not install the LCD TV in a bookshelf, closet, or a place where there is poor air circulation.
- Fire may be caused due to the rise of internal temperature.

Safety PrecautionContinued from previous page

The contents of this section are provided for the safety of users and their property. Please read the instructions carefully before using.

WARNING

Make the antenna cable loop at the entrance of the building. Any necessary action such as making the antenna cable loop at the entrance of the building should be taken to prevent rainwater on the outdoor antenna cable from possibly running into the indoor.

- If raindrop gets into the LCD TV, it may cause a fire or an electric shock.

Never attempt to open, fix, or modify the LCD TV.

- When there is a need for fixing, call a service center. Fire or electric shock may be caused.

WARNING

Do not place any heat sources such as radiators and heat registers, etc. on or near the LCD TV.

- It may cause a fire.

Do not block ventilating slits.

- Blocking the ventilation slits prevents inner heat from escaping, which may lead to a fire.

Safety instructions are divided into “Warning” and “Alert”. Their meanings are as follows.

-  This icon is intended to alert the user to the presence of potential danger and important operating instructions.
-  **Warning** : When there is a possibility of serious injury or death if not observed.
-  **Alert** : When there is a possibility of slight injury or product damage if not observed.

Do not put a metallic object like chopstick, wire, or puncher or inflammables like paper or a match in a vent, headphone jack, or AV jacks of the LCD TV.
- Electric shock or fire may be caused.

When the LCD TV produces abnormal noise, burning smell, or smoke, unplug the LCD TV immediately and call a service center.
- Electric shock or fire may be caused.

Ensure the power cord doesn't trail across any hot objects like a heater.
- This may cause a fire or an electric shock.

Do not install the product on the floor.
- If it falls over, your child may be injured.

Unplug the product during lightning or thunderstorms and never touch the antenna cable.
- It may cause a fire or an electric shock.

Keep the remote control batteries out of sight and out reach of children.
- If your child swallows a battery, see your doctor immediately.

Safety PrecautionContinued from previous page

The contents of this section are provided for the safety of users and their property.
Please read the instructions carefully before using.

WARNING

Do not allow children to climb or play on the LCD TV.
- If it falls over on children, it may cause serious injury.

Do not place toys and cookies, etc. on the LCD TV, which may attract children's attention. Children will climb on the LCD TV to reach whatever they have their eyes on.
- If it falls over on children, it may cause serious injury.

ALERT

In the event of damaging or dropping the product, switch off the power and remove the plug.
- Using a damaged product may cause an electric shock or a fire.
- Contact your local service center.

Unplug when you do not use your LCD TV for a long time.

- If dust is stacked on the LCD TV, electric shock or fire may be caused from heat, fire, or deterioration of insulation.

Safety instructions are divided into “Warning” and “Alert”. Their meanings are as follows.

-  This icon is intended to alert the user to the presence of potential danger and important operating instructions.
-  **Warning** : When there is a possibility of serious injury or death if not observed.
-  **Alert** : When there is a possibility of slight injury or product damage if not observed.

When cleaning the LCD TV, make sure to disconnect the power plug and use a dry, soft cloth for a cleanup.

- Please avoid using chemicals such as wax, benzene, alcohol, thinner, mosquito spray, air freshener, lubricant or synthetic detergent.

When replacing batteries, make sure to match the batteries to the (+) and (-) marks in the battery compartment.

- Mismatching of polarities may result in internal damage to batteries, fire due to leakage or contamination.

Always use the standard batteries and avoid using old batteries together with new ones.

- Otherwise it may result in internal damage to batteries, fire due to leakage or contamination.

When moving the LCD TV, 2 or more people are advised to carry it.

- Injury or damage may be caused when the LCD TV falls.

Consult a service center or customer service for inside cleaning about once a year.

- When dust is piled inside the LCD TV for a long time, fire or malfunction may be caused.

Before moving your LCD TV, ensure to switch off the power and unplug all the electrical cords and the external connection cords such as an antenna cable and other source connections, etc.

- An electrical cord(s) may be damaged resulting in a fire or an electrical shock.

Composite(Video & Audio) Cable

S-video cable

Scart Cable

Audio Cable(DVD/DTV)

Audio Cable(PC)

How to Use the Kensington Security Slot

- This display unit supports a Kensington-type security device to secure your LCD TV. Kensington lock is not included.
- To purchase and install the Kensington locking device, please refer to the following contact information.

* Kensington Technology Group

- Address : 2000 Alameda de las Pulgas 2F San Mateo, California 94403-1289
- Tel : +1 650 572 2700 • Fax : +1 650 572 9675
- Web-site : www.kensington.com

How to Use the Rear Cap and Cable Holder

The Rear Cap and Cable Holder allow you to organize the connection cables on the rear of the product.

1. Pressing and pulling two hooks on the rear downward can detach the rear cover.
2. Connect your cables to the terminals of the rear.
3. Organize the connected cables neatly using the Cable Holder.
4. Align the rear cover with the guide holes and push the cover firmly toward the front of the monitor until the latches click into the locked position.

How to Adjust the View Angle

You can adjust the angle of the view for the desired view angle.

You can adjust any angle within a range of 30° to the left or right.

You can adjust the tilt of the TV from -5° to 10° after the installation.

How To Install Wall Mount Support

1. Caution

1. Install on the vertical wall surface only.
2. Do not install on the following places to protect the performance of LCD TV and to prevent malfunction.
 - Near sprinkler Detector,
 - Near heating devices,
 - Places where vibration or shock may be applied ,
 - Near high voltage electric power line
3. Install in a proper method with the structural materials of the wall.
If the wall is not strong enough to stand weight of TV set, reinforce the wall surface before installation.
4. Do not install within a wall.

2. Parts configuration chart

* The above image may look different from the real product.

3. Angle Adjustment(Optional)

The angle of LCD TV may be adjusted from -15 degree to 15 degree.

* A fixed wall mount frame does not support angle adjustment.

How To Install Wall Mount Frame

4. Installation Method

1. Unscrew screws fastened on 4 spots on the stand of LCD TV.

3. Fix the Base Frame Assy on the wall with screws or nails.

2. Fasten the Fixing Panel assembly on the back of LCD TV as shown on the picture.

(ATTENTION! Please use the supplied screws (4 x 12 mm or no longer than 12 mm.)

4. Hook the Fixing Panel Assy with the LCD TV attached on the Base Frame Assy. (Tighten the screws as shown in the above picture to ensure that the TV is secured.)

Parts Names and Functions

Front View

* The above image may look different from the real product.

❶ Source button

Use this button to switch among inputs connected to the LCD TV.

❷ Menu button

Use this button to display or exit from menus.

❸ Volume buttons

Use these buttons for your desired sound level. These buttons also serve as the cursor of Select/Adjust when in Menu mode.

❹ Channel(Program) buttons

Use these buttons to change programs. These buttons also serve as the cursor of Down and Up buttons when in Menu mode.

❺ Power button

Use this button to turn on or off the LCD TV.

❻ Remote sensor and power LED.

- Point the remote control toward here.
- It displays standby or operation status.

Indicator	Status
Red	Stand-by
Green	Power on
Green blinking	Remote control

Rear View

* The above image may look different from the real product.

- ❶ **Power input terminal**
Power cord is connected here.
- ❷ **ANT. input**
This allows you to connect your antenna.
- ❸ **D-SUB input terminal**
Connect to RGB output terminal of a PC.
- ❹ **Component input terminal for DVD or DTV**
Connect to the Component output terminal of DVD player/DTV receiver.
- ❺ **Audio input terminal for DVD or DTV**
Connect to the audio output terminal of DVD player/DTV receiver.
- ❻ **S-video input terminal**
Use this for the better video quality than Composite video input terminal.
- ❼ **Video and Audio Composite input terminal for VCR**
Connect to the Composite Video output terminal of VCR or DVD player.
- ❽ **Headphone Jack**
Connect to the Headphone.
- ❾ **Audio input Jack**
Connect to the audio output terminal of PC.
- ❿ **Scart input terminal**
For Composite Video/Audio or R, G, B input used in the European area.

Remote Control

1 POWER/STANDBY

Use this button to turn the TV set on or off.

2 MUTE

Use this button to turn the sound off completely.

3 NUMERIC KEYS

- Use these buttons to select programs and input digit.
- Enter program names using alphabets and special letters.

4 PRE-PR

Use these buttons to return to the previous program.

5 ASPECT RATIO

Use this button to change the picture size. (This function is available only with the TV, Video, S-Vedio, Scart mode.)

6 STILL

Use this button to freeze a picture.

7 VOLUME

Use this button to control the volume level.

8 PR

- Use this button to select programs.
- Use this button to jump back to TV mode from other mode.
- Use this button to turn the TV set on.

9 MULTI/S.SWAP

- Use this button to select 9 partitions screens. (This function is available only with the TV, Video, S-Video, Scart mode.)
- Sound Swap is only available when in PIP/POP mode.

10 SUB SOURCE

Use this button to select the input source in sub picture.

(⇒ TV ⇒ VIDEO ⇒ S-VIDEO ⇒ SCART ⇒)

11 UP/DOWN

Use these buttons to move each item of menu you want to choose.

12 MAIN SOURCE

- Use these buttons to display the available video source. (TV, VIDEO, S-VIDEO, SCART, COMPONENT, PC)

13 SLEEP

Use this button to allow your TV to turn off automatically at designated time.

14 INFO

Use this button to display input source and clock information.

15 S.MODE

Use this button to display types of audio signals currently aired on TV. Or you can use this button to switch to other Sound Mode available.

16 EXIT

- Use this button to exit from a menu or function.
- Use this button to exit from PIP/POP/MULTI.

17 LEFT/RIGHT

Use this button to select or adjust each item of menu.

18 MENU

Use this button to bring up the OSD on the screen.

- ⑱ **POP (Picture Of Picture)**
Use this button for POP On/Off. (This function is available only with the TV, Video, S-Vedio, Scart mode.)
- ⑳ **PIP (Picture in Picture) / POSITION**
Use this button for PIP On/Off or select position.
- ㉑ **VIDEO**
Use this button to select Video, S-Video or Scart mode.
- ㉒ **COMPONENT/PC**
Use this button to select Component or PC mode.
- ㉓ **SOUND**
Use this button to select the status of sound.
- ㉔ **PICTURE**
Use this button to select the status of picture.
- ㉕ **PR LIST**
Use this button to select program list.

Teletext & Fastext Function —

(➔ P. 71 ~ 73)

- ① **TTX**
Use this button to activate the teletext mode.
- ② **LIST/FLOF**
To select LIST/FLOF mode.
- ③ **STORE**
To store teletext pages.
- ④ **SUB PAGE**
To move to Sub Page.
- ⑤ **REVEAL**
To reveal the hidden TTX information.
- ⑥ **BLUE**
To move between BLOCK and BLOCK.
- ⑦ **YELLOW**
To move to NEXT GROUP PAGE.
- ⑧ **GREEN**
To move to NEXT EXISTING PAGE.
- ⑨ **RED**
To return to the previous selection
- ⑩ **SIZE**
The size is changed from Normal, Double to Double Bottom mode in order.
- ⑪ **HOLD**
To freeze the TV screen when in Multi Page.
- ⑫ **MIX**
To select MIX mode.
- ⑬ **INDEX**
To move to INDEX in FLOF or move to INFO in TOP.

How to Insert Batteries in Remote Control

*Battery type : 1.5V/BP-2KM(AAA/LR03G)

Connections

Connecting Indoor/Outdoor TV Antenna(UHF/VHF)	23
Connecting to the Antenna Input Connection on the External Equipment	24
Connecting a VCR, Cable/Satellite Receiver	25
Connecting a DTV Receiver or DVD Player	26
Playing Back a Tape Recorded On a Camcorder	27
Connecting to a PC	28
Resolutions Supported in PC	29
Scart Connection to the External Input/Output	30
Scart Pin Specifications	31

Connecting Indoor/Outdoor TV Antenna(UHF/VHF)

Connection Method

Ensure to connect an antenna cable to the antenna input connection.

How to Watch

- 1 Turn on your LCD TV and press **SOURCE** **MAIN** or **PR** on remote control unit to select TV.

You can select ⇄ TV ⇄ VIDEO ⇄ S-VIDEO ⇄ SCART ⇄ COMPONENT ⇄ PC ⇄ in order.

- 2 Press **PR** or Numeric keys to select the desired Programs.

TIP

- When inserting a 75-ohm coaxial cable into the input connection, ensure the wire tip not to bend.
- If you experience poor signal reception, we recommend you purchase a signal amplifier for better picture quality.

Connecting to the Antenna Input Connection on the External Equipment

Connection Method

- 1 Connect an antenna cable to VCR/Cable/Satellite Receiver with the antenna input.
- 2 Use a coaxial cable to connect VCR/Cable/Satellite Receiver's antenna output to the antenna input on your LCD TV.

Connecting a VCR, Cable/Satellite Receiver

Connection Method

- 1 Connect Video/S-Video cable between Video/S-Video output terminal of VCR or Cable/Satellite receiver and Video/S-Video input terminal of LCD TV.
(Connect cables and terminal in the same colors)
- 2 Connect Audio cable (left:white color, right:red color) between Audio output terminal of VCR or cable/satellite receiver and Audio input terminal of LCD TV.
(Connect cables and terminal in the same colors)

How to Watch

- 1 Turn on your LCD TV and press  on remote control unit to select Video or S-Video.
You can select ⇄ VIDEO ⇄ S-VIDEO ⇄ SCART ⇄ in order.
- 2 VCR play : Turn on the VCR and insert a tape and play it.
Cable/Satellite receiver : Turn on the receiver and select a channel.
Read a user manual of VCR, Cable/Satellite Receiver for more details.

Use S-video cables for better picture quality.

Connecting a DTV Receiver or DVD Player

Connection Method

- 1 Connect video cables(Y, Pb, Pr) between output terminals(Y, Pb, Pr) of DTV receiver or DVD player and the input terminals(Y, Pb, Pr) of DTV/DVD on the rear of LCD TV.
(Connect cables and terminal in the same colors)
- 2 Connect Audio cable between Audio output terminal of DTV receiver or DVD player and Audio input terminal for DTV/DVD Audio on the rear of LCD TV.
(Connect cables and terminal in the same colors)

How to Watch

- 1 Turn on your LCD TV and press **COMPONENT PC** on remote control unit to select DTV or DVD.
You can select ⇄ COMPONENT ⇄ PC ⇄ in order.
- 2 Turn on a DTV receiver or DVD player and use it.
Read the user manual of DTV receiver or DVD player for more details.

TIP

- Output terminal mark(Y, Pb, and Pr) of DVD player may be written as Y, B-Y, R-Y/Y-Cb-Cr / Y-Pb-Pr. (It depends on DVD player)
- To watch digital broadcast, you have to separately purchase a digital set-top box and connect it to LCD TV.

Playing Back a Tape Recorded On a Camcorder

Connection Method

- 1 Connect Video cable between Video output terminal of Camcorder/Game player and Video input terminal of LCD TV.
(Connect cables and terminal in the same colors)
- 2 Connect Audio cable (left:white color, right:red color) between Audio output terminal of Camcorder/Game player and Audio input terminal of LCD TV.
(Connect cables and terminal in the same colors)

How to Watch

- 1 Turn on your LCD TV and press  on remote control unit to select Video.
You can select ⇄ VIDEO ⇄ S-VIDEO ⇄ SCART ⇄ in order.
- 2 Turn on a Game player or Camcorder and use it.
Read the user manual of Game player or Camcorder for more details.

Connecting to a PC

Connection Method

- 1** Connect PC signal cable(15 pins D-SUB) between output terminal of PC and the D-SUB input terminal of a LCD TV.
- 2** Connect Audio cable between Audio output terminal of PC and Audio input terminal for PC of LCD TV. (Connect cables and terminal in the same colors)

When Using as a PC Monitor

- 1** Turn on your LCD TV and press **COMPONENT**  on remote control unit to select PC.
You can select ⇄ COMPONENT ⇄ PC ⇄ in order.
- 2** Turn on the PC and use it. (Refer to next page on the back for the supported resolutions for PC)

This product supports plug-and-play function.

Resolutions Supported in PC

Resolution	Horizontal frequency(kHz)	Vertical frequency(Hz)
720 x 400	31.5	70.1
640 x 480	31.5	59.9
	37.9	72.8
800 x 600	37.9	60.3
	46.9	75
1024 x 768	48.4	60
	56.5	70.1
	60	75

HQL200NR

- Recommended Resolution is 640x480@60Hz
- Max Resolution is 1024x768@75Hz

HQL170WR

- Recommended Resolution is 1024x768@60Hz
- Max Resolution is 1024x768@75Hz

Scart Connection to the External Input/Output

Connection Method

This end can be fitted with : A Scart connector

How to Watch

1 Turn on your LCD TV and press  on remote control unit to select SCART.

You can select ⇄ VIDEO ⇄ S-VIDEO ⇄ SCART ⇄ in order.

2 Read a user manual of VCR, DVD, Satellite Receiver and other etc. for more details.

TIP

- When switching voltage comes into the Scart-Pin 8 during viewing a TV program, the current mode will be switched to Scart mode.
- Any inappropriate connection when connecting or removing your scart connector may generate a Blue Screen. If this happens, ensure that the scart connector is properly connected.

Scart Pin Specifications

If you wish to connect other equipment via the scart connectors on your TV, contact your dealer or a qualified technician to wire the A/V cable as illustrated below.

PIN	SIGNAL	PIN	SIGNAL
1	Audio Output R	12	-
2	Audio Input R	13	Red Input GND
3	Audio Output L	14	-
4	Audio Input GND	15	RGB Red Input
5	Blue Input GND	16	RGB Blinking Signal Input
6	Audio Input L	17	Video Output GND
7	RGB Blue Input	18	Video Input GND
8	Switching Voltage Input	19	Video Output (CVBS)
9	Green Input GND	20	Video Input (CVBS)
10	-	21	Scart Connector GND
11	RGB Green Input		

Picture Setup

How to Select the Picture Mode	33
How to Set the Desired Picture	34
How to Set Noise Reduction	35
How to Set PIP [Mode]	36
How to Set POP [Mode]	36
How to Set Multi [Mode]	37
How to Freeze Picture	38
How to Select the Aspect Ratio	39

How to Select the Picture Mode

Users can adjust picture mode automatically according to the input mode(TV, Video, S-Video, Scart, Component).

Press Menu button.
Menu items appear on the screen.

1

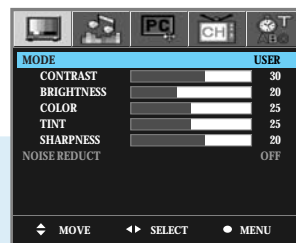

Press Left and Right buttons to select
“”.

2

Press Up and Down buttons to move to
“Mode”.

3

Press Left and Right buttons, then the menu
changes in order below.
⇒ STANDARD ⇒ USER ⇒ DYNAMIC ⇒ MILD ⇒

Press MENU button after the setting is done, and Menu goes to the previous menu.
If the EXIT button is pressed, the menu disappears.

STANDARD : For a general contents, It fits most video contents.

USER : When the user wants to set the values ➔ [see the next page](#)

DYNAMIC : For a clear display.

MILD : For a soft display.

PICTURE

How To Directly Select Picture Mode : Press  button.

- Users can select ⇒ Standard ⇒ User ⇒ Dynamic ⇒ Mild ⇒ in order.

TIP

Adjustments menu may be different according to the input source.
(To set Picture mode in PC mode, please see page 51.)

How to Set the Desired Picture

Users can manually adjust the picture in their own ways.

- 

Press Menu button.
Menu items appear on the screen.
- 1**

Press Left and Right buttons to select "MODE".

- 2**

Press Up and Down buttons to move to "MODE".

- 3**

Press Left and Right buttons to select "USER".
- 4**

Press Up and Down buttons to choose one of the items listed.
- 5**

Press Left and Right buttons to adjust.
- 

Press MENU button after the setting is done, and Menu goes to the previous menu.
If the EXIT button is pressed, the menu disappears.

CONTRAST : Adjust the brightness and darkness of object and background.
BRIGHTNESS : Adjust the brightness of the entire picture.
COLOR : Adjust colors into deeper or lighter colors.
TINT : Adjust colors naturally.
SHARPNESS : Adjust clarity of outline of objects.

- COLOR, TINT, SHARPNESS is not applied to PC mode.
- SHARPNESS is not applied to Component mode.

How to Set Noise Reduction

Noise Reduction is to eliminate some noise on the screen and is not applied to Component and PC mode.

Press **Menu** button.
Menu items appear on the screen.

1

Press **Left** and **Right** buttons to select
“”.

2

Press **Up** and **Down** buttons to move to
“**NOISE REDUCT**”.

3

Press **Left** and **Right** buttons, then the menu
changes in order below.
⇒ **OFF** ⇒ **MIDDLE** ⇒ **STRONG** ⇒

Press **MENU** button after the setting is done, and Menu goes to the **previous** menu.
If the **EXIT** button is pressed, the menu **disappears**.

OFF : For a normal screen.

MIDDLE : For a reduced noise on the screen.

STRONG : For a strongly reduced noise on the screen.

TIP

In the noise reduction, the more you reduce screen noise, the more the sharpness level of the picture will degrade.

How to Set PIP [Mode]

- You can watch another device's image in the PIP while watching the main image.
- This function is available only with the remote control.

Press the PIP button.
You will see the PIP at the upper left corner.

Press the PIP button, then position changes in order below.
 ⇨ Left Up ⇨ Right Up ⇨ Right Down
 ⇨ Left Down ⇨ OFF ⇨

SOURCE

How to Set the Audio Mode(Equalize)	42
How to Set the Desired Audio	43
How to Listen to Stereo Sound / Dual Sound	44
How to Select the Surround	46
How to Select AVL	47
How to Select the Sound Swap	48

How to Select the Volume, Balance and Mute

- Users can adjust the volume and Balance of left and right speakers.

Press Menu button.
Menu items appear on the screen.

1

Press Left and Right buttons to select
“”.

2

Press Up and Down buttons to move to
“VOLUME or BALANCE”.

3

Press Left and Right buttons to adjust.

Press MENU button after the setting is done, and Menu goes to the previous menu.
If the EXIT button is pressed, the menu disappears.

MUTE

How To Select the Mute : Press  button.

Playing sound is Stopped.

To deselect Mute function, Press MUTE button once more.

How to Set the Audio Mode(Equalize)

Users can adjust sound mode automatically as users want.

Press Menu button.
Menu items appear on the screen.

1

Press Left and Right buttons to select

2

Press Up and Down buttons to move to
"EQUALIZE".

3

Press Left and Right buttons, then the menu
changes in order below.

⇒ STANDARD ⇒ MUSIC ⇒ MOVIE ⇒ NEWS ⇒ USER ⇒

Press MENU button after the setting is done, and Menu goes to the previous menu.
If the EXIT button is pressed, the menu disappears.

STANDARD : For the general sound. This fits most audio contents.

MUSIC : For original sound

MOVIE : For grandiose sound

NEWS : For clear sound

USER : When the user wants to set the value ➔ [see the next page](#)

SOUND

How To Directly Select Sound Mode : Press  button.

Users can select ⇒ STANDARD ⇒ MUSIC ⇒ MOVIE ⇒ NEWS ⇒ USER ⇒ in order.

How to Set the Desired Audio

Users can manually adjust the sound in their own ways.

Press **Menu** button.
Menu items appear on the screen.

1

Press **Left** and **Right** buttons to select
“”.

2

Press **Up** and **Down** buttons to move to
“**EQUALIZE**”.

3

Press **Left** and **Right** buttons to select “**USER**”.

4

Press **Up** and **Down** buttons to choose one of the items listed.
⇒ 120 Hz ⇒ 500 Hz ⇒ 1.5 kHz ⇒ 5 kHz ⇒ 10 kHz ⇒

5

Press **Left** and **Right** buttons to adjust.

Press **MENU** button after the setting is done, and Menu goes to the **previous menu**.
If the **EXIT** button is pressed, the menu **disappears**.

How to Listen to Stereo Sound / Dual Sound

- Users can set sound mode as users want.
- This function is available only with the remote control.

- Listening to stereo sound

S.MODE

Press the  button on the remote control to select Mono or Stereo. Mono or Stereo be will selected in turn whenever you press the button.
 (*During FM MONO broadcast, pressing the  button will display the current status.)

- Listening to the Dual sound

S.MODE

Press the  button on the remote control to select Dual sound.

Dual 1 : Your national language.

Dual 2 : Foreign language

(*Dual 1 or Dual 2 be will selected in turn whenever you press the button.)

This S.MODE displays the current Audio signal status, and controls the processing of Audio signal. When power is switched on, the mode is automatically preset to either “Dual-I” or “Stereo”, depending on the current signal transmission condition.

	Type of Broadcast	On-Screen Indication
NICAM Stereo	Regular Broadcast (Standard audio)	Mono (Normal use)
	Regular+ NICAM Mono	NICAM Mono ↔ Mono
	NICAM Stereo	NICAM Stereo ↔ Mono
	NICAM Dual-I/II	NICAM Dual 1 ↔ NICAM Dual 2 ↔ Mono ↔
A2 Stereo	Regular broadcast (Standard audio)	Mono (Normal use)
	Bilingual or Dual-I/II	Dual 1 ↔ Dual 2
	Stereo	Stereo ↔ Mono

TIP

If the signal reception conditions deteriorate, setting to Mono will make your listening condition better.

How to Select the Surround

You can listen to dynamic and surround sound only with ordinary speakers.

Press **Menu** button.
Menu items appear on the screen.

1

Press **Left** and **Right** buttons to select
“”.

2

Press **Up** and **Down** buttons to move to
“**SURROUND**”.

3

Press **Left** and **Right** buttons to select “**ON/OFF**”.

Press **MENU** button after the setting is done, and Menu goes to the **previous menu**.

Care and Cleaning	77
Product Specifications	78

Troubleshooting

Installation Problems

Symptom	Possible solution
How can I install an antenna?	Refer to pages 23~24 .
TV screen is not clear after installing an indoors antenna.	Indoors antenna may experience poor reception due to surrounding buildings. Please install an outdoors antenna or wireless antenna.
How can I view cable broadcasting?	Please install a cable broadcasting receiver (Converter).

Picture Problems

Symptom	Possible solution
Neither picture nor sound comes up.	Check whether power is on. Check whether the power is cut or whether power cord is properly connected. Try to plug another product's power cord to the outlet the LCD TV is plugged into.
Picture turns on slowly after power is on.	This symptom is not a malfunction. This delay is designed to prevent the distorted and noisy picture when power is on. However, if the picture does not appear more than 5 minutes after power is on, call a service center.
Vertical and horizontal lines and web patterns briefly appear on the picture and shake.	This symptom may be caused by interference from other electric appliances. Please avoid using a cordless phone, hairdryer, and electric drill, etc.
Input Source information only appears on black screen.	Check whether your TV is properly connected to external devices.
Poor reception on some channels.	Check whether you selected proper channels. Try re-orienting your antenna. Ensure LNA is activated.
Black and white on some channels.	Check other channels for black and white screen. Adjust colour.
TV won't turn on.	Ensure the power cord is plugged.
Screen is too bright or too dark.	Adjust brightness.

Auto On does not work.

Ensure to use the remote control or power button on the product to turn off your TV. If you unplug the power cord, the stand-by consumption power becomes 0 (zero), which causes the programmed time to be erased.

After setting the time, I turned TV off and turn it on. The programmed information has been erased.

Ensure to use the remote control or power button on the product to turn off your TV. If you unplug the power cord, the stand-by consumption power becomes 0 (zero), which causes the programmed time to be erased.

Audio Problems

Symptom

Possible solution

Too much noise occurs.

Check whether the audio setting is in the Stereo mode. In the Stereo mode, the sound may be distorted in the area where experiences poor reception or is located far away from a TV broadcasting station.

No sound while viewing a cable channel

Make sure an audio or audio/video component is securely inserted into the appropriate jacks. Check other channels for sound. Check the volume settings on the cable broadcasting receiver.

Picture is OK but sound does not come out.

Try to press volume up/volume down buttons of your remote control.

One of the speakers does not produce sound.

Select sound balance and make proper adjustment. (Page 41)
Check the speaker connection cables.

General

Symptom

Possible solution

Remote control won't work.

Check whether there is a blocking object between the remote control and LCD TV. Make sure your LCD TV is Power On. (In case of normal, LED on the front panel is in Red.)
Check whether batteries are inserted with proper polarities(+, -).
When the batteries are worn out, replace with new ones.

Where does the S-Video cable plug in for audio output?

Connect the two Audio jacks from the S-Video cable to the left and right ports on the Composite.

Strange noises are heard.

Ticking noise during or after watching is caused by the change of ambient environment such as humidity and temperature, which is characterized by plastic products. Strange ticking noise occurs because a signal is suddenly transmitted to the LCD panel. So, this is not a malfunction.

I tried to use the TV screen as a PC monitor but it doesn't work.

Adjust the resolution referring to the standard signal mode table. Check the specification of your video card installed in your PC. If your video card does not work in supported hardware. Try upgrading the video card's driver.

Care and Cleaning

Cabinet Cleaning

Wipe a soft dry cloth.

Do not use inflammables like Benzene or Thinner, or wet clothes.
Do not scratch the panel of TV with a fingernail or pointed object.

Screen Cleaning

Clean the screen with a soft cloth moistened in mild glass detergent and dry with a soft cloth.

Never use any solvent on the screen such as Acetone, Benzene, or Thinner, etc.

Cleaning Inside

When the inside needs to be cleaned, contact a service center or distribution agent where the item is purchased.

It is recommended cleaning is complete before the rainy season.
